

NEWS OF SPORTS

FUR TRADERS DEFEAT THE SWIFT COMPANY

Hudson's Bay Company despite their loss on the fur trade, were victorious in the hockey game played last night at the rink on the corner of 10th and 11th streets. The game was a close one, but the Swift Company was defeated.

The Hudson's Bay Company rink, which has been the scene of many a hockey game, was the scene of a very close one last night. The Swift Company, who have been the champions of the rink for some time, were defeated by the Hudson's Bay Company.

At the end of the first half the score was 2-1 in favor of the Hudson's Bay Company. The game was very close, and the Swift Company were very good, but they were defeated.

The forward line of the Swift Company, team, held the puck for most of the game, but their defense was weak and they were defeated.

CANADIAN GOODS ARE NOT WELL ADVERTISED

British Public Doesn't Know Them. Because They Sell on Their Own—The Need of Advertising—An All-British Shopping Week.

London, Feb. 9.—One of the most popular members of the Canadian set in London, and one who is always arguing the merits of the Dominion, I. A. P. MacLaren, of Toronto. Speaking to the writer today, he lamented the fact that in England you can never get Canadian goods in spite of the fact that large quantities are exported to England.

While you can buy Canadian cheese or apples in nearly every store in London, if you ask for 'Canadian cheese,' you will be informed that they do not keep it. The same applies in the case of bacon and ham; although the hams are branded, the goods packed in boxes marked 'Canadian produce.'

The reason for this state of things, I think, is that a demand for Canadian goods has not been created in England, and that countries like Denmark, Norway, Sweden, Denmark, Belgium, and the Netherlands, which have been so successful in doing business, if public attention were called to their goods, a demand would be felt at once.

It is not only Canadian goods, but Canadian products, and other countries are getting the benefit.

"The fame of Australian burgundy has become known because the Australian government has been so successful in advertising, and I notice that as small a country as New Zealand is advertising the quality of its butter, and a market is being made. After the first of the year, the quality and the quantity is to be good, because it is a demand for that brand becomes."

Don't advertise unless you have a good product to sell, and a good campaign. Canada is an advertising campaign. Canada is an advertising campaign. Canada is an advertising campaign.

Hundreds of barrels of Ontario apples have been sent to London, and at the Ontario Government, I was informed that complaint is frequently made that the apples cannot be bought in the shops. In Canada, the apples are of good quality, but as soon as the fruit gets into the shops it goes to pieces, and it has been found that the apples are not so good as the fruit in the orchard.

All British shopping week.

Canada in London are greatly interested in the quality of the goods. The goods are of good quality, but as soon as the fruit gets into the shops it goes to pieces, and it has been found that the apples are not so good as the fruit in the orchard.

THE CANADA NATIONAL FIRE INSURANCE COMPANY was incorporated April 7th, 1909, by Special Act of the Parliament of Canada, with an **AUTHORIZED CAPITAL OF THREE MILLION DOLLARS---(\$3,000,000.00)**

Divided into 30,000 shares of \$100.00 each, for the purpose of carrying on the business of Fire Insurance, as outlined in the Insurance Act and the Special Act of Incorporation.

The Head Office of the Company is in the City of Winnipeg, and in addition to this, Branch Offices and Agencies will be established throughout the Dominion. It must be generally conceded that, owing to the satisfactory conditions at present prevailing throughout not only Western Canada, but the entire Dominion, this Company is being organized at a most favorable and opportune time.

Canada, and particularly the Western portion of the Dominion, is increasing in population and wealth more rapidly than at any other time in its history, and every indication points towards a period of great prosperity and development.

The great influx of settlers into Western Canada is resulting in tremendous activity in every line of business. Railroad construction is proceeding on a scale hitherto unknown in this country, and as adequate transportation is of vital importance in moving our immense crops with a proper degree of facility, it is highly encouraging to see so much well directed energy along the lines of railway extension.

Coincident with railway expansion, we find many new districts rapidly filling up with desirable settlers, bringing with them a good supply of cash and effects. With the settlement of the rural districts, new towns and villages are springing up, which, during the next few years, become, in many instances, important business centres.

With such unprecedented growth in Western as well as Eastern Canada, involving an expenditure of millions of dollars in building operations, it is at once evident that there is a very extensive and profitable field for a new Fire Insurance Company, which will have a thorough organization throughout the length and breadth of the Dominion and more particularly in the four Western Provinces.

As a great volume of our business will be transacted in the West, it is a matter of the greatest importance that the Head Office of the Company, as well as the Directors, should be located in the West, so that the affairs of the Company may be conducted to the best possible advantage.

DIRECTORS AND ADVISORY BOARD
The Directors and Advisory Board consist entirely of Western men with a very intimate knowledge of Western conditions, and they are, accordingly, well conversant with the financial and general business requirements of the West. They are thoroughly representative of the various important branches of financial, commercial, industrial and professional life in Western Canada, and with their wide reputation of business ability and integrity, as well as financial standing, combined with a varied experience, and practical knowledge of business affairs, they are exceptionally well qualified to render excellent service to a large financial institution.

THE DIRECTORS.
As the Directors have valuable connections with extensive business interests, and are also Directors of other financial corporations, as well as being otherwise identified with large and influential companies, they can create a great deal of high grade fire insurance, they will be instrumental in placing a large and desirable insurance with the new Company, so that we may safely conclude that from the very beginning of operations, a large and profitable business will be assured.

The Canada National Fire Insurance Company

(Incorporated by Special Act of the Parliament of Canada.)

HEAD OFFICE: WINNIPEG, MANITOBA, CANADA

Application for Capital Stock

I, the undersigned, hereby apply for the share of the authorized capital of The Canada National Fire Insurance Company, of the par value of One Hundred Dollars (\$100.00) each of the Capital Stock of the said Company, as follows: Shares, of the par value of One Hundred Dollars (\$100.00) each, being at a premium of fifteen (15) per cent., and I consent and agree to pay for the said shares, Twenty-five dollars per share, and the balance in ten consecutive half-yearly instalments of nine dollars per share; the first of such half-yearly instalments to become due and payable six months from the date of the issue of the Certificate of Stock to the holder of such shares.

I further agree to accept said shares when they are allotted to me, and I do hereby request that my name be duly registered on the books of the Company as the holder of such shares.

Applications for stock will be filed in the order received, and on approval of same by the Board of Directors, a Stock Certificate will be issued to the holder of such shares.

The holder of these shares will be paid the dividends that may be declared on the same from time to time by the Board of Directors. Dividends shall be declared and apportioned in proportion to the amount paid into the Company on the par value of the shares.

Call on shares may be paid prior to due dates, and when all such calls have been paid, a fully paid certificate will be issued to the holder of these shares.

These shares are transferable only on the books of the Company by the owner in person or by attorney in surrender of the Certificate of Stock properly endorsed. Transfers shall not be valid unless approved by the Board of Directors.

Signed in the presence of

Name (in full) _____

Street and No. _____

Place _____

Occupation _____

Under these favorable conditions and with a strong energetic as well as experienced and conservative management, combined with the fact that each Director has subscribed for five hundred dollars (five hundred dollars (\$11,000) of the Capital Stock, on which all calls have been paid, and takes an active interest in the welfare of the Company, there is only one thing to draw attention to, and that is, that the affairs of the Company will be conducted in such a careful, conscientious and intelligent manner that the interests of the policyholders and stockholders will be fully protected.

It is worthy of note that about \$300,000 of Capital Stock has already been subscribed by the Directors and their friends.

No commission has been paid to anyone for securing stock subscriptions, and no expense has been incurred in the promotion and organization of the Company, except the expense in connection with securing the Charter and other necessary expenses.

THE CANADA NATIONAL FIRE

The Canada National Fire being organized in the West may be truly called a Western company, and, as such, should receive the liberal patronage and hearty co-operation of the citizens of Western Canada, as well as the support of people from Eastern Canada, who desire to become associated with a strong and progressive Canadian Company.

When promoting this Company, the Directors were fully convinced that there was a splendid opening in Western Canada for a company prepared to carry on the business of Fire Insurance on a large and comprehensive scale, and which, at the same time, could offer adequate protection to both policyholders and shareholders. Accordingly, when making application for a Dominion Charter, the Company was incorporated with a capital of \$3,000,000.00, of which amount, it is the intention of the Directors to immediately offer for sale, the large sum of \$2,000,000.00.

The all important feature in Fire Insurance, is protection, and with the large capital, combined with the high Standard of Reserve, which will be maintained through careful selection of risks and profits from judicious investments, the Directors and management feel confident that this Company will be accorded a very hearty reception by Canadian citizens, and will soon rank as one of the leading Fire Companies.

Without a large and substantial capital for the protection of policyholders, a fire insurance company is seriously handicapped, and does not afford the policyholder the protection to which he is justly entitled, and the Directors of this Company being fully aware of this most important fact, are adopting a very wise policy in offering the subscription, such a large amount of capital stock; and when our entire stock is subscribed and paid in full, it will represent the largest amount of subscribed and paid-up capital of any Canadian Fire Insurance Company, and will be a tower of strength, and of very material benefit to the Company in carrying on its extensive operations.

It shall be the policy of the Company to use the utmost discretion in the selection of desirable risks, and, at the same time, to so widely distribute its business, that any danger arising from a possible conflagration, at any point may be reduced to a minimum.

The investment of the Company's funds will be given the utmost care and attention by the Board of Directors.

Only gilt-edged securities will be considered, such as first mortgages on improved, productive real estate, stocks, bonds and debentures of companies of high repute, as well as Dominion securities, and municipal, county and school debentures of well established districts.

A large percentage of these securities is readily negotiable, the Company will have abundant liquid assets to meet any possible contingency that might arise. Our first mortgage investments will be secured to Western Canada, and as the rate of interest obtainable on first class productive real estate, is Fully Two Per Cent. greater in the West than in Eastern Canada, the Company will have a decided advantage over Companies operating exclusively in the older portions of the Dominion. A fixed policy of the Company is to loan not more than fifty per cent. of a conservative value of the property, and to stipulate for a definite return of principal, together with interest, each year during the term of the loan, so that the periodic repayments of principal, and with land values in Western Canada steadily increasing, the Company's first mortgage securities will continue to improve year by year.

With the active development in Western Canada, a great deal of capital will be required for many years to come, and the Company will, therefore, experience a very favorable demand for its funds on high grade securities and at a profitable rate of interest.

The Directors have decided to issue the first allotment of stock at the price of One Hundred and Fifteen Dollars per Share, being at a premium of fifteen per cent.

THE TERMS OF SUBSCRIPTION ARE:

On application, \$15.00 per share, which shall include the premium of \$15.00 per share, and the balance payable in ten consecutive half-yearly instalments of \$9.00 per share; the first of such half-yearly instalments, to become due and payable six months from date of allotment of shares.

Shares may be paid in Full at time of subscription, but, if purchased on the instalment plan, the subscriber shall have the privilege of paying any or all of the instalments prior to due dates.

The following table shows the amount of first call as well as the subsequent calls:

No. Shares	Amount of First Call	Half Yearly Payments	Total Purchase Price of Shares at the Price of \$115.00 per Share	Table showing total purchase price of shares at the price of \$115.00 per share

No bonus stock shall be issued for any subscription, and even the Directors and Advisory Board, who are very heavy stockholders in the Company, have paid the same price for their shares as the general public. Not one share has been or will be issued to any person at a price less than \$115.00 per share.

This is a rare opportunity to secure some of the first issue of Capital Stock of a Western Fire Insurance Company. With a large amount of desirable and profitable business, so readily obtainable by the Company through its valuable and extensive business connections, rapid progress should be made; and with investments carefully selected and uncollected in earning power, the Company will be enabled not only to pay substantial dividends but build up a large reserve, and thereby materially increase the value of the stock.

The Directors, therefore, are making a great demand for the issue of stock, would strongly advise the investing public to make application for the stock with as little delay as possible.

The Directors firmly believe in the policy that Every shareholder should co-operate with the management of a Company and take an active interest in its welfare. For this reason, it is their intention to widely distribute the Capital Stock and by that means, obtain the support of the leading business and professional men throughout the Dominion.

With the rapid development of the West during recent years, involving an outlay of many millions of capital, it has become generally recognized that Western Canada is very much in need of more large financial institutions, and especially of Western origin, to properly meet the growing requirements of the West, and to not only improve the present financial situation, but to materially assist in retaining as much as possible desirable business, with its resultant profits, within our own Western borders.

The business of fire insurance has now grown to such large proportions that it has become a very important factor in the financial and commercial world, and its scope and influence is so general and widespread, it is only natural that the question of ample protection

to policyholders, which is the primary function of fire insurance companies, should be so generally discussed at the present time.

Our first mortgage investments will be secured to Western Canada, and as the rate of interest obtainable on first class productive real estate, is Fully Two Per Cent. greater in the West than in Eastern Canada, the Company will have a decided advantage over Companies operating exclusively in the older portions of the Dominion. A fixed policy of the Company is to loan not more than fifty per cent. of a conservative value of the property, and to stipulate for a definite return of principal, together with interest, each year during the term of the loan, so that the periodic repayments of principal, and with land values in Western Canada steadily increasing, the Company's first mortgage securities will continue to improve year by year.

With the active development in Western Canada, a great deal of capital will be required for many years to come, and the Company will, therefore, experience a very favorable demand for its funds on high grade securities and at a profitable rate of interest.

The Directors have decided to issue the first allotment of stock at the price of One Hundred and Fifteen Dollars per Share, being at a premium of fifteen per cent.

The following Canadian Government Insurance statistics should prove of especial interest:

In the year 1899, the total amount of fire premiums collected in Canada was \$1,785,539.00, whereas in the year 1909, the total premiums charged, amounted to the large sum of \$2,310,000.00, and of this amount, \$6,551,644.41 was charged by Canadian Companies; \$1,518,267.45 by British Companies; and \$4,223,721.39 by American Companies.

During the last forty-one years the aggregate amount of fire insurance premiums collected in Canada reached the immense total of \$80,745,476.00, of which, the large sum of \$48,130,242.00 represents the amount of premiums collected by foreign companies, and which, therefore, was taken out of the country to build up foreign companies and enrich foreign shareholders.

The above figures are most significant and clearly demonstrate that while the Canadian Fire Companies have been using a satisfactory business, they have secured only a small portion of the Fire Insurance transacted in Canada; or to be more exact, only twenty-two per cent. of the total Fire Insurance written in Canada covering a period of the last forty-one years. With the extraordinary progress which Canada has been making during recent years, the field for financial institutions has become so widely extended, that there is a constantly increasing demand for new, large financial corporations.

By further reference to our Government statistics, it will be observed that at December 31st, 1909, the total number of Canadian Fire Companies, operating under Dominion Charter, was only twenty-one, and of this number, only two had a paid-up capital in excess of \$250,000.

In promoting this large Canadian Company, the Directors are fully conversant with the financial and general business requirements of the West. They are thoroughly representative of the various important branches of financial, commercial, industrial and professional life in Western Canada, and with their wide reputation of business ability and integrity, as well as financial standing, combined with a varied experience, and practical knowledge of business affairs, they are exceptionally well qualified to render excellent service to a large financial institution.

The Directors, therefore, are making a great demand for the issue of stock, would strongly advise the investing public to make application for the stock with as little delay as possible.

The Directors firmly believe in the policy that Every shareholder should co-operate with the management of a Company and take an active interest in its welfare. For this reason, it is their intention to widely distribute the Capital Stock and by that means, obtain the support of the leading business and professional men throughout the Dominion.

With the rapid development of the West during recent years, involving an outlay of many millions of capital, it has become generally recognized that Western Canada is very much in need of more large financial institutions, and especially of Western origin, to properly meet the growing requirements of the West, and to not only improve the present financial situation, but to materially assist in retaining as much as possible desirable business, with its resultant profits, within our own Western borders.

The business of fire insurance has now grown to such large proportions that it has become a very important factor in the financial and commercial world, and its scope and influence is so general and widespread, it is only natural that the question of ample protection
